

## Nuss Relocations Australia achieves ISO27001 Certification

Monday 23 November 2020;

For immediate release.

**Nuss Relocations Australia is proud to announce that it has attained ISO27001 certification**

An integral part of our commitment to the management of information security has been our successful attainment of ISO 27001 certification. This certification is the latest addition to our suite of ISO related achievements:

The safe handling and protection of data is now one of the most important as well as challenging requirements for all businesses and we are particularly proud of attaining this certification as this demonstrates our ability and commitment to the tasks necessary in ensuring this responsibility.

FIDI ACCREDITED INTERNATIONAL MOVER

In the words of Bob Nuss.... **Quote** *"We are pleased and excited to have achieved this certification. It provides the highest level of assurance to our clients and partners around the world that Personally identifiable information (PII) and data security is a priority at Nuss and that we have a robust management system to prove it."*.... **Unquote.**

**About Nuss:**

Nuss is a privately owned Australian company specialising in providing moving and relocation services throughout Australia and on a worldwide basis. These services include both international and domestic moving, storage and global move management. Our DSP division offers home search, school search, city orientation and settling-in services along with a full range of integration support services for people on the move.
